

## Jude B. Alix Baptiste

April 3, 1973 - March 12, 2024

On Tuesday, March 12, 2024, J. B. Alix Baptiste passed away at the Cleveland Clinic hospital with his family by his side, after battling colon cancer for several months.

Alix was born in Haiti on April 3rd, 1973 to father B. Alix Baptiste and mother M. L. Aurore Charles Baptiste.

Professionally, Alix was a Renaissance man. He attended the Nouveau College Bird (NCB) from elementary to high school and graduated in 1995. He graduated from electronics at NCB in 1995. He is a graduate of Quisqueya University in Haiti and earned a degree in architecture. In 2007, while living in the Dominican Republic, he decided to explore his love of cooking by studying culinary arts at INFOTEP. Alix was an artist. He was a professional photographer, a painter, and a singer. He loved creating and listening to music. He also enjoyed playing soccer. Alix's love for children compelled him to give back by becoming a soccer coach and teacher to special needs kids.

In his personal life, Alix was a devoted husband to his wife, Erica F. Charles Baptiste. He was a hands-on, caring, and loving father to his children, Elixha A. Baptiste, and Elijha A. Baptiste. He was a good role model and support system, when needed, to his siblings: F. B. Achille Baptiste and L. A. Alise Baptiste. Alix loved spending quality time with his children, his niece, Seyhilla Baptiste and his nephews: Yakine Volel and Sayhill Baptiste. He was a father

figure and role model to countless other children.

Alix always left a positive impact on everyone who interacted with him. He was sincere and genuine. He was always willing to listen, help or comfort others. He was friendly and loved bringing people together. If there was an issue, he would try to quickly resolve it. He was also very compassionate. He touched a lot of people's hearts, in one way or another. The only people that will not be impacted by his death are those who were not blessed enough to meet him.

Our deepest sympathy goes out to:
