High, his work ethic and desire to take care of his family led him to learn the trade of selling while studying medicine at a young age. After graduating from medical school he completed his education in Business and Economics. Years after he worked tirelessly to achieve one of his dreams, which was to buy his mother a house. Incidentally while in medical school, he met his future wife, Margaret. His dream, they were wed in 1977.

He joined Margaret in the United States and they later settled here in Chicago and then eventually New York. He started a family and had two sons, Douglas and Richard. After establishing a practice in New York, he and Margaret worked together for over 30 years to build a thriving medical practice. There was a very dynamic man who worked relentlessly to achieve any goal he had. He had an immense will to see things through no matter how difficult. He was very touched by the suffering of his country of origin, Haiti, and founded multiple non-profit organizations to send funds of supplies to Haiti. He was always ready to provide to any fundraising activity to help the people of Haiti.
